

Presbyterian Early Learning Center
Parent Testimonials as Reported to Red Apple Research
in our June 2011 School Survey

“In Pre-K, the curriculum was above and beyond my expectations. I love that they are introducing sounds and reading while still keeping the play atmosphere. My child has learned so much.”

“You have such wonderful teachers, who not only show the kids lots of love but also offer them all sorts of educational enrichment. My child was so happy at PELC; we will miss it.”

“I could never express how grateful my family and I are for your support and guidance during such impressionable and important years of my child’s life. Thank you.”

“We had a wonderful experience and are very grateful that such a well-run, broadly-focused age-appropriate and nurturing program exists. So many programs today emphasize academics at the expense of other equally important developmental needs of the pre-school set, or the reverse. PELC offers a very well-rounded program that we feel confident has prepared our child for kindergarten without short-changing other needs. Thank you all very much.”

“We have so enjoyed having both of our kids do two years each of preschool at PELC. It far exceeded our expectations regarding caliber of teachers, friendliness of staff, flexibility of scheduling, class curriculum, and preparation for kindergarten.”

“My daughter has benefitted greatly from her year at PELC. The social aspects she would have been exposed to anyway, but she has truly enjoyed the creative activities used to teach the curriculum, which has fostered her own interest in art. I have been so impressed by the teaching staff. They have been supportive and helpful to me as a parent, and caring and encouraging to my daughter. As soon as you walk in the room you feel their warmth and excitement and the interest they show in each child. They are continually working to improve what is already a great program.”
